

Dharm Navadiya

Full Stack Developer

+91 942-714-8301 • dharmnavadiya01@gmail.com • linkedin.com/in/dharmnavadiya • Anand, Gujarat, India

SUMMARY

Enthusiastic Frontend Developer with a strong foundation in web technologies and a passion for building user-friendly applications. Final-year B.Tech student with hands-on experience developing academic and personal projects. Eager to apply problem-solving abilities, technical skills, and a continuous learning mindset in a dynamic development environment.

EDUCATION

B.Tech in Computer Engineering

2023 – 2027

CVM University, Anand, Gujarat

Relevant Coursework: Data Structures & Algorithms, DBMS, Web Technologies, Operating Systems, Computer Networks

EXPERIENCE

Completed a 15-day Frontend Development Internship and gained practical experience in web development. Worked on responsive user interfaces and improved understanding of modern web technologies. Enhanced problem-solving, teamwork, and software development skills through hands-on project work.

TECHNICAL SKILLS

Languages	Python, JavaScript, SQL
Frontend	React.js, Tailwind CSS, HTML5, CSS3
Backend	Node.js, Express.js,
Databases	MongoDB, MySQL,
Tools	Git, GitHub, Postman, VS Code, npm
Concepts	Problem Solving, MVC Architecture, JWT Authentication, Responsive Design, Team Collaboration

PROJECTS

- AgriMitra** **React.js • Node.js • Express.js • MongoDB • ML Tools**
 - Designed a full-stack agricultural advisory platform with real-time crop recommendations, weather integration, and market price tracking for rural farmers.
 - Built a secure Node.js/Express.js REST API with JWT authentication, modular routing, and MongoDB indexing for optimized data retrieval.
 - Delivered a fully responsive React.js UI with Tailwind CSS, ensuring accessibility across low-bandwidth mobile and desktop environments.
- EcoSnap** **React.js • Java Script • Tailwind Css • MongoDB**
 - Desind and developed an AI-Powered Sustainable shopping assistant that enables users to evaluate that enables users to evaluate products through real-time barcode and QR-code scanning, promoting informed and eco-conscious purchasing decision.
 - Built an intelligent product analysis system featuring sustainability scoring, carbon footprint estimation, and side-by-side product comparison to help users identify environmentally friendly alternatives.
 - Delivered a fully respopnsiv web application with AI-driven recommendation, gamification features, and an intuitive user interface, ensuring seamless accessiblity across mobile and desktop platform.
- Weather Dashboard** **React.js • Java Script • CSS-3 • API Integration**
 - Designed and Developed a Weather forecasting application that providess real-time weather updates and location-based forecasts.
 - Integrated third-party weather APIs to display temperature, humidity, wind speed, and weather conditions dynamically.
 - Delivered a responsive and user-friendly interface optimized for both desktop and mobile platforms.

ACHIEVEMENTS & ACTIVITIES

- Completed a Cloud Computing certification, gaining foundational knowledge of cloud services, deployment models, and cloud-based application environments.cloud computing
